◆

1 INTRODUCTION

The report describes about creating collections on Archive-It, Webrecoder, WAIL, WARCreate. It explains about the experience of creating collections on each of the four different tools, compares them over their advantages and disadvantages for each other. It also explains about the tools in terms of capture, quality and ease of use. This report also highlights on the importance of building this collection and description of seeds in measuring the use of the collection.

2 SEEDS AND THEIR DESCRIPTION

<http://www.firstpost.com/politics/election-results-2014-historic-win-for-nda-with-336-seats-285-for-bjp-1526377.html>

This seed presents a brief review of the 2014 Indian Parliamentary election results.

<http://www.elections.in/parliamentary-constituencies/2014-election-results.html>

This seed presents the detailed results listing the number of seats won by each political party and the winners at each constituency.

http://eci.nic.in/eci_main1/statistical_reportge2014.aspx

This seed is the official website of Election Commission of India with 2014 Indian Parliamentary Elections. This seed can be used to see all the detailed information about the election results.

<https://india.blogs.nytimes.com/2014/04/08/a-primer-on-indias-parliamentary-elections/>

This seed from New York Times sheds light on the Indian Democracy and its election procedure for new users who have a little understanding of Indian Democracy setup.

<https://thediplomat.com/2014/02/in-indias-national-election-dont-trust-the-polls/>

This seed deals with a very amusing problem of why the Election Polls conducted by multiple media houses fail to give a clear picture of Indian Election results.

https://en.wikipedia.org/wiki/Campaigning_in_the_Indian_general_election,_2014

This seed from Wikipedia is about the controversies and the discourse of campaigning for 2014 Indian Parliamentary Elections. It also sheds light on the two major contestants for the position of Prime Minister.

<http://www.constitutionnet.org/news/secularism-and-constitution-india-controversy-under-modi-administration>
 This seed deals with the question of what will change in India after Mr. Narendra Modi gets elected. It also backs up its headline by providing previous evidences from Mr. Narendra Modi's administration.

https://www.huffingtonpost.com/2014/05/15/narendra-modi-views_n_5316284.html
 This seed from Huffington Post sheds light on why Mr. Narendra Modi leading India is so controversial.

<http://in.reuters.com/article/india-election-adani-modi/billionaire-adani-prospers-as-modi-stresses-development>
 This seed from Reuters is about close ties between Mr. Narendra Modi and Industrialist Mr, Adani and how this relationship has formed a path for crony capitalism.

https://www.washingtonpost.com/world/indias-muslims-worried-about-controversial-hindu-leader-as-national-2014/04/14/663c6376-468b-4969-bcf9-75f2007c6d2f_story.html?utm_term=.56d247f0822c
 This seed from The Washington Post tells us about what the Parliamentary Elections of 2014 mean to the minorities in India.

<https://www.nytimes.com/interactive/2014/04/06/world/asia/modi-gujarat-riots-timeline.html>
 This seed from New York Times is about the series of events which took place in communal riots of 2002 in state of Gujarat. It is important as the current Prime Minister of India Mr. Narendra Modi was the Chief Minister (head of state) of Gujarat in 2002. There have been allegations on him for supporting the communal riots.

<http://www.thehindu.com/news/national/no-guilty-feeling-about-gujarat-riots-says-modi/article4908704.ece>
 This seed is from The Hindu, one of India's most reputed newspapers. It is sheds light on views of Mr. Narendra Modi on Gujarat communal riots.

<https://www.truthofgujarat.com/truth-gujarat-narendra-modis-criminal-culpability-2002-riots/>
 This seed is a website that contains new articles related to Gujarat Communal Riots of 2002. It keeps track of all the news on this issue.

<http://www.hindustantimes.com/static/uttar-pradesh-communal-riot/anatomy-of-a-riot/>
 This seed is from Hindustan Times, India's most read newspaper. It is a three- series investigative report on communal violences in India. It also explains how things have rolled about since Mr. Narendra Modi had come to power in 2014.

<https://thewire.in/58640/black-money-investigation-a-feast-of-vultures/>
 This seed deals with one of the most talked about issue during the election campaign i.e. Black Money. this article tells us about what had been done by the government till August 2016 and also gives some insights about how this Government is benifitting Mr.Gautam Adani financially.

3 WEBRECODER

URL of the Collection

<https://webrecorder.io/naumansiddiqui4/2014-indian-parliamentary-elections>

The collection was initially built with sixteen seeds but now it contains twentyseven bookmarks. It has a collection size of 147.55 MB. It was my first collection and was fairly easy to build. It required me to just paste the seeds one after the other in the Webrecoder's Bookmark Bar. It has a very simple user interface

which displays all the necessary informations like the seeds list and timestamp for the creation of the seed, original URL and the bookmarks show a detailed description of each seed.

2014 Indian Parliamentary Elections

This collection doesn't yet have a description.

Fig. 1. Webrecorder Collection Homepage

3.1 Review of Seeds

3.1.1 Seed 1

URL of Webrecorder: <https://webrecorder.io/naumansiddiqui4/2014-indian-parliamentary-elections/201710090254.html>

<http://www.firstpost.com/politics/election-results-2014-historic-win-for-nda-with-336-seats-285-for-bjp-1526377.html>

This seed has been captured with all the resources. It is a scrollable page with a number of news on the single page. There issue related with the capture of this seed is it flickers a lot. The page turns blank and then reappears with the data and it happens after every few seconds.

3.1.2 Seed 2

URL of Webrecorder: <https://webrecorder.io/naumansiddiqui4/2014-indian-parliamentary-elections/201710090254.html>

<http://www.elections.in/parliamentary-constituencies/2014-election-results.html>

This seed has been captured with all the resources. The capture is perfectly fine with no issue apart from some advertisements missing but they are not of our concern.

3.1.3 Seed 3

URL of Webrecorder: <https://webrecorder.io/naumansiddiqui4/2014-indian-parliamentary-elections/201710090254.html>

http://eci.nic.in/eci_main1/statistical_reportge2014.aspx

This seed has captured the page but none of the links on the page work. The purpose of the seed was to archive Election Commission of India pages containing 2014 Parliamentary Election results but Webrecorder captured the URL and none of its outlinks. This capture is not a useful one.

3.1.4 Seed 4

URL of Webrecorder: <https://webrecorder.io/naumansiddiqui4/2014-indian-parliamentary-elections/201710090254.html>

<https://india.blogs.nytimes.com/2014/04/08/a-primer-on-indias-parliamentary-elections/>

This seed has all the resources captured except for the videos in the news article. They just keep buffering and after sometime become unresponsive and do not even accept the play and pause commands.

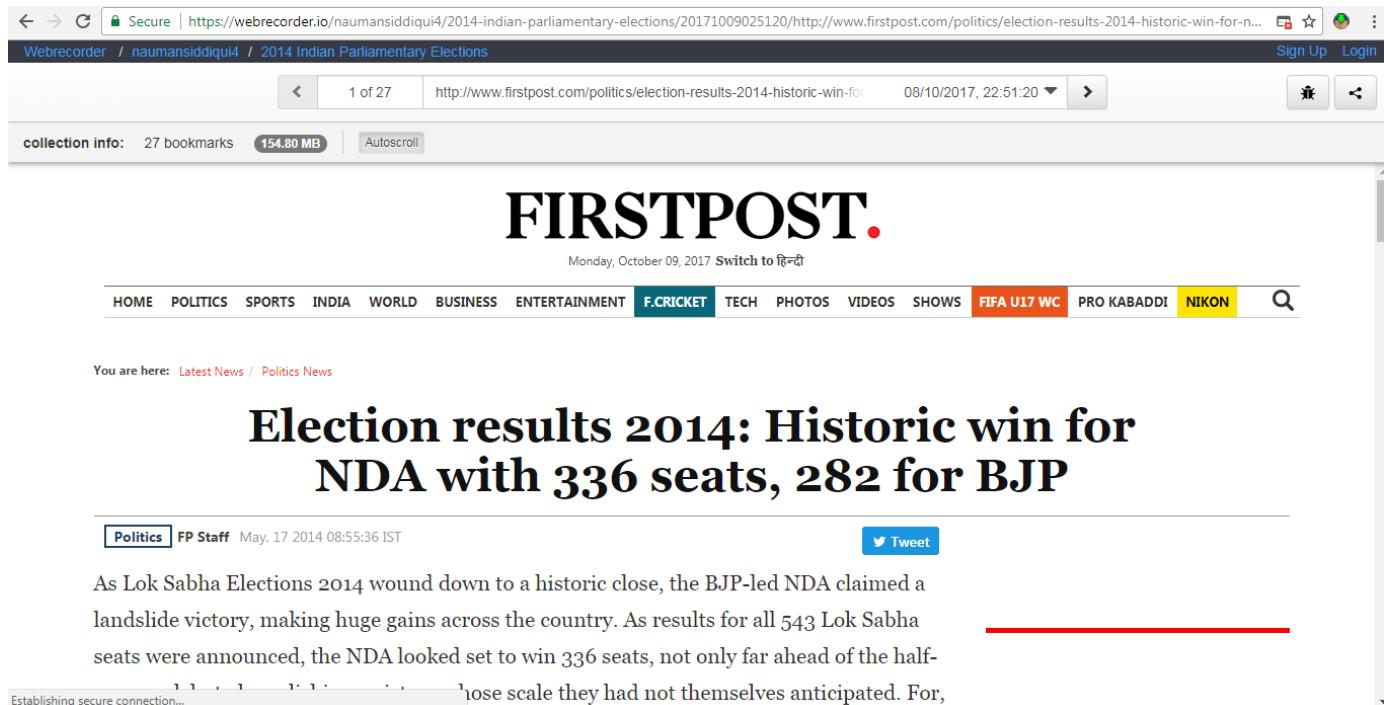

Fig. 2. Webrecorder Capture of Seed 1

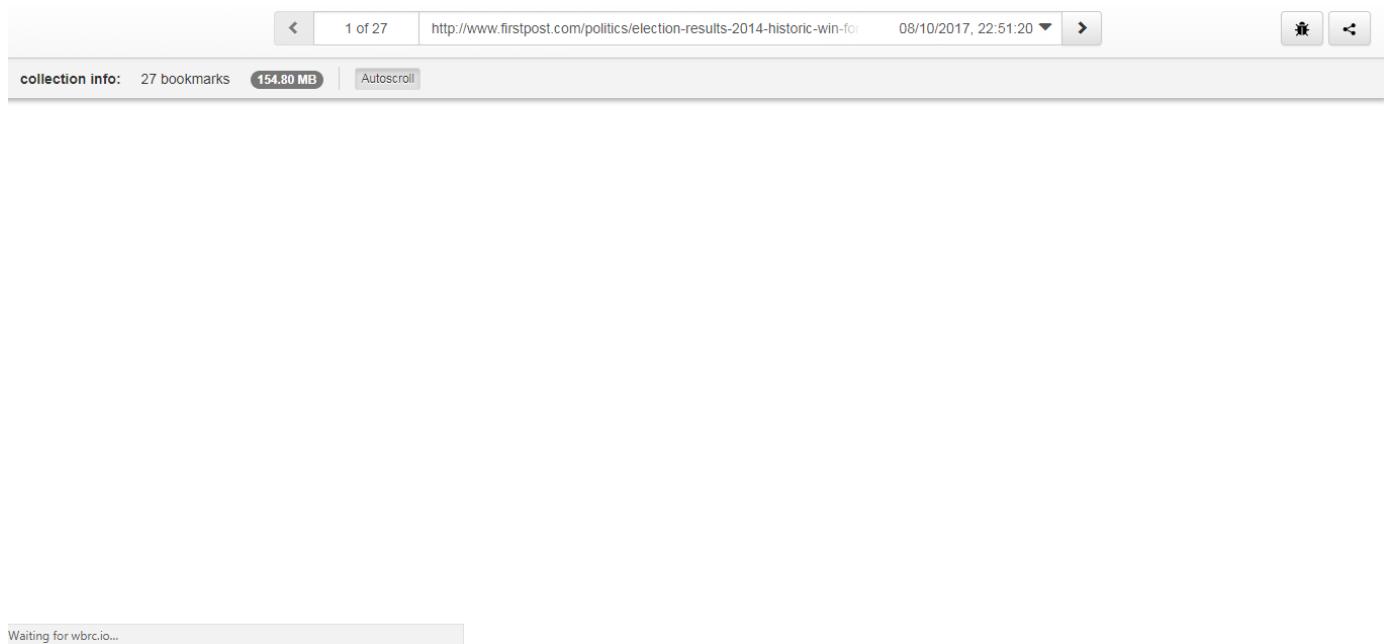

Fig. 3. Webrecorder Capture of Seed 1 (Flicker issue)

3.1.5 Seed 5

URL of Webrecorder: <https://webrecorder.io/naumansiddiqui4/2014-indian-parliamentary-elections/20171009025120/>
https://www.nytimes.com/interactive/2014/04/06/world/asia/modi-gujarat-riots-timeline.html#/time287_8190

This seed has all the resources captured. Even the timeline in the article works perfectly fine.

In India's National Election, Don't Trust the Polls

Election polling in India has some severe limitations, especially at the national level.

By Jonah Force Hill February 24, 2014

[f](#) [t](#) [g+](#) [in](#) [d](#)

On February 13, a noteworthy diplomatic meeting occurred. Nancy Powell, the U.S. ambassador to India, met with Gujarat Chief Minister Narendra Modi, the chief minister of the Indian State of Gujarat, at his home in the new state capital of Gandhinagar. The talks were the highest-level meeting between Modi and any U.S. government official since the State Department revoked Modi's visa in 2005, following allegations that he and his State government had failed to protect minority Muslims from attacks by Hindus during the communal riots that swept across his Gujarat state in 2002.

The sudden thaw in the relationship comes as India heads into the 2014 Lok Sabha (Lower House of

India's Muslims worried about controversial Hindu leader as national elections begin

Correction: An earlier version of this article said incorrectly that India's Supreme Court ruled that there was no evidence to charge Narendra Modi with a crime in riots in 2002. The finding was by a Supreme Court-appointed panel. The story has been corrected.

A holy city's challenge for India's next prime minister

Campaigning in the Indian general election, 2014

From Wikipedia, the free encyclopedia

The Indian general election of 2014 were held to constitute the 16th Lok Sabha in India. Voting took place in all 543 parliamentary constituencies of India to elect members of parliament in the Lok Sabha. The result of this election was declared on 16 May. The 15th Lok Sabha completed its constitutional mandate on 31 May 2014.^[1] Since the last general election in 2009, the 2011 Indian anti-corruption movement by Anna Hazare, and other similar moves by Baba Ramdev, have gathered momentum and political interest.^[2] Issues such as Inflation, price rise and corruption were some of the chief issues.

Indian general election, 2014

2009	7 April 2014 – 12 May 2014	2019 →
→ outgoing members members →		
543 seats in the Lok Sabha		
272 seats needed for a majority

5 Reasons Why Narendra Modi Leading India Is So Controversial

politician is poised to take the reins of power, after exit polls showed his opposition party trouncing the incumbents.

880

f t p e 320

After more than half a billion Indians cast their ballots, the latest tallies suggest the Hindu nationalist Bharatiya Janata Party (BJP) is set to win between 248 and 282 seats in the parliamentary election, with the ruling Congress party set to take 92-102 seats. Final results are expected on Friday.

A BJP victory could pave the way for its party leader Narendra Modi to become prime minister of the world's most populous democracy, a rising economic power, and a nuclear-armed Western ally.

Modi has positioned himself as a pragmatic technocrat, focusing his [election campaign](#) on reviving India's stagnant economy, cleaning up a corrupt government, and a tough stance on national security. The candidate also distanced himself from [his party's right flank](#), assuring voters that while he is a proud Hindu nationalist, his priority is "[toilets first, temples later.](#)"

Love Jihad: UP's forbidden couples
By Appu Esthose Suresh
19th October, 2016

Mohammed Reyaz was working in his family's shop selling clothes when he met Priya Gupta. They both lived in Alipur Khera, a village in Uttar Pradesh's Mainpuri district. They fell in love. But he was Muslim and she was Hindu, a fact that was impossible to ignore in UP's communally charged political landscape.

What followed was a dramatic love story: it involved two elopements, the village council and even the police. Such are the challenges faced by UP's Hindu-Muslim couples who are tagged as examples of "love jihad," an unproven and controversial term popularised by Hindu right-wing groups that alleges a conspiracy by Muslim men to seduce and convert Hindu girls.

Although the term — "love jihad" or "Romeo jihad" — is new, the underlying allegations have a history. Charu Gupta, a history professor at Delhi University, found a similar campaign by Hindu right-wing groups in the 1920s, "ranging from allegations of rape, abduction and elopement, to luring, conversion, love and forced marriages."

UP police also lump these wildly varying charges — from girls who allege sexual violence to parents who insist that their missing daughter did not voluntarily elope but was kidnapped — into a single category, according to records reviewed by the Hindustan Times. From a law enforcement perspective, what binds all of these incidents together is their potential to spark larger communal disturbances.

Modi, Adani and Black Money. Where's the Investigation Going?

BY JOSY JOSEPH ON 13/08/2016 • 9 COMMENTS

SHARE THIS: [Tweet](#) [Print](#) [More](#)

The biggest black money case that has come up so far is that of the Adani group, promoted by Gautam Adani, one of Modi's closest associates, writes Josy Joseph in his book *A Feast of Vultures: The Hidden Business of Democracy in India*. Here's an excerpt.

Fig. 17. Webrecorder Capture of Seed 13

3.1.14 Seed 14

URL of Webrecorder: <https://webrecorder.io/naumansiddiqui4/2014-indian-parliamentary-elections/201710090312>
<http://in.reuters.com/article/india-election-adani-modi/billionaire-adani-prospers-as-modi-stresses-development>
 This seed has two of the three images missing. It is strange as one of the image is perfectly captured but the rest two blur in the capture.

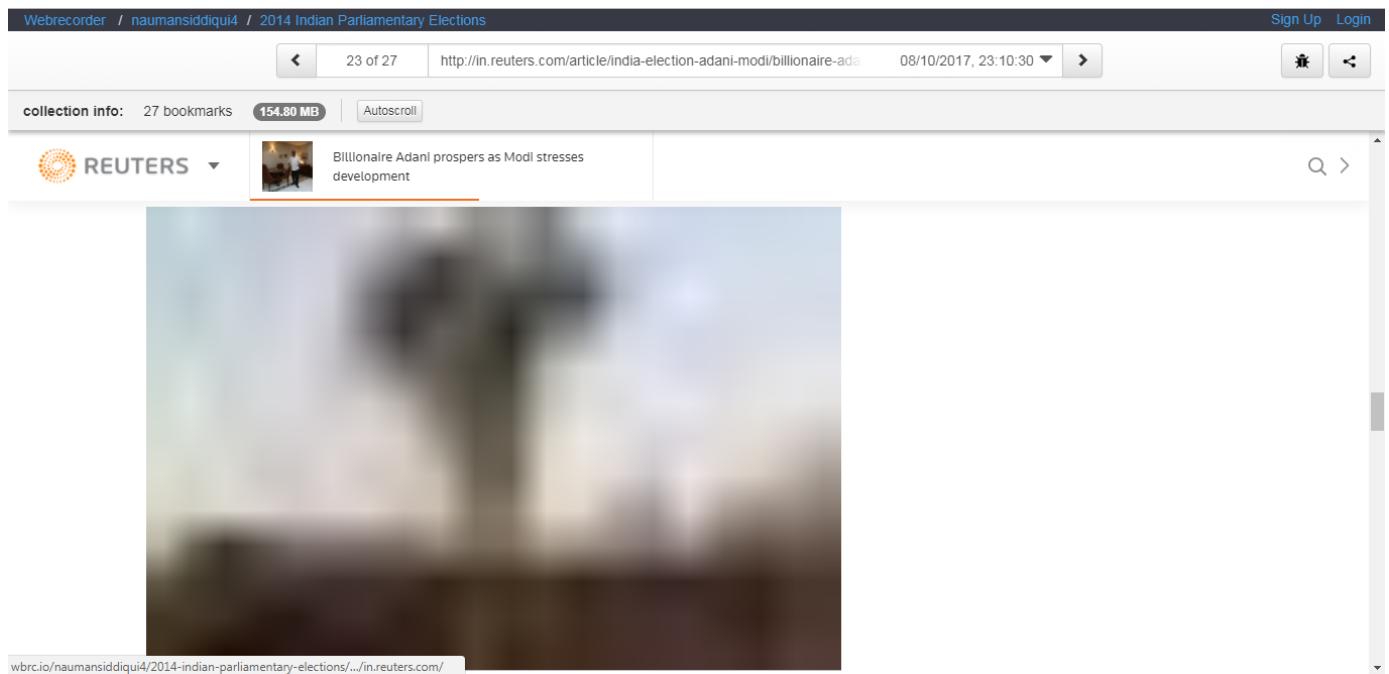

Fig. 18. Webrecorder Capture of Seed 14(Image missing)

3.1.15 Seed 15

URL of Webrecorder: <https://webrecorder.io/naumansiddiqui4/2014-indian-parliamentary-elections/201710090312>
<https://www.truthofgujarat.com/truth-gujarat-narendra-modis-criminal-culpability-2002-riots/>
 This seed is a website on Gujarat Riots but none of the links on the webpage work making this seed almost useless. Even the slider of images on the original URL do not contain all the images when viewed in full screen.

3.2 Advantages and Disadvantages of Webrecorder

Advantages of Webrecorder:

- It is easy to use with just pasting the seed URLs in the Webrecorder's bookmark bar.
- It has a very simple webpage with all the useful information in one place.
- It is very efficient at recording single page seeds. It has an almost 100 p% accuracy in capturing the contents for a single page.
- It is very useful when while surfing the internet you want to record any interesting URL.

Disadvantages of Webrecorder:

- It is very poor at capturing seeds which require crawling for related pages. It almost never crawls for the page outside the seed URL which makes it useless for archiving related pages.
- It did not capture the video and images for somepages which makes it unpredictable for pages containing images and videos.
- It makes the user paste single URL at a time unlike Archive-It which is a slight tedious process.

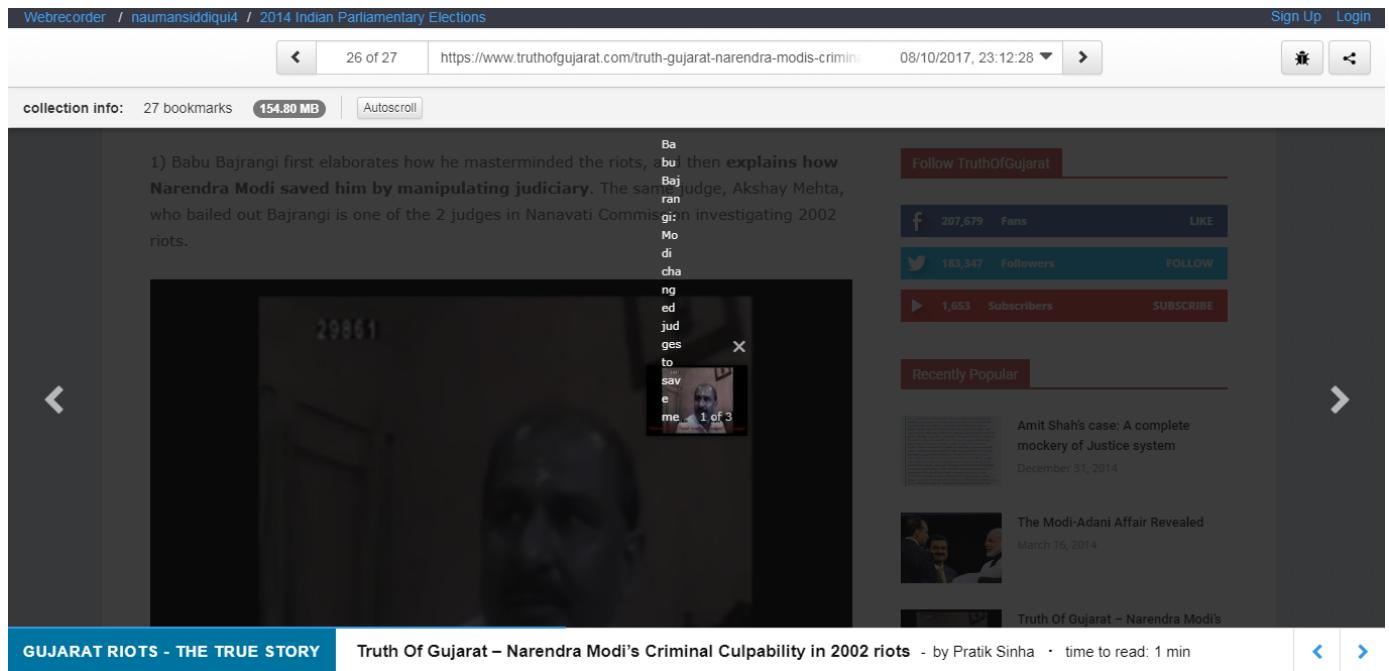

Fig. 19. Webrecorder Capture of Seed 14(Image in slider missing)

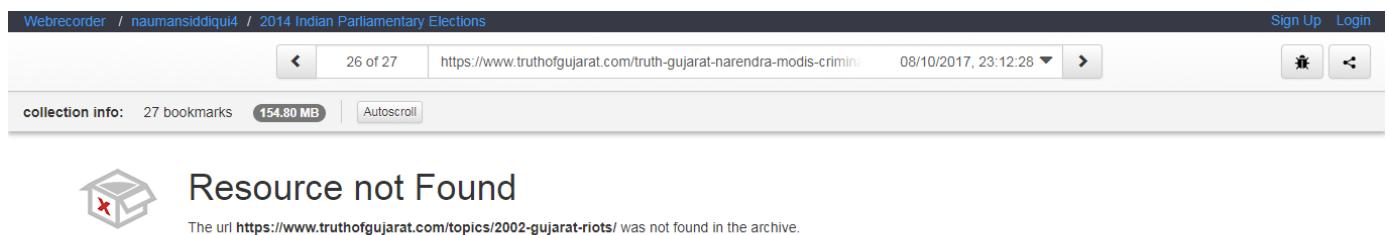

Fig. 20. Webrecorder Capture of Seed 15(Links in the page not working)

4 ARCHIVE-IT

URL of the Collection

<https://partner.archive-it.org/536/collections/9543>

The collection has fifteen seeds with a collection size of 91.9 GB and 2,362,468 documents. Thirteen of fifteen seeds are page only crawl and the rest two are standard crawls. The initial crawl frequency for all the pages was daily but it was later changed to weekly after a week. I faced an error while navigating in the Archive-It, the screenshot for the error have been attached.

The screenshot shows the Archive-It Collection Overview page. At the top, there's a navigation bar with links for Home, Collections, Crawls, Archives, ARS, Help Center, and a welcome message for Nauman Siddique. Below the navigation is a horizontal menu with tabs: Overview (which is selected), Seeds, Crawls, Collection Scope, Metadata, and Wayback QA. The main content area starts with a section titled "Collection Data" showing a donut chart indicating 91.9 GB Archived since Aug 31, 2014. To the right of the chart is a box for "Total Data Archived" showing 91.9 GB and 2,362,468 documents. On the far right, there are "Collection Settings" dropdowns for Public and Active status, and a "Save" button. Below these are sections for "Public Collection Link" (with the URL https://archive-it.org/collections/9543) and "Collection Data vs Account". Further down is a "Scheduled Crawls" table with columns for Frequency (Weekly), Active Seeds (15), Next Crawl (Oct 27, 2017), Last Crawl (Oct 20, 2017), Time Limit (3 Days), Data Limit (No Limit), Doc. Limit (No Limit), and a "Edit Schedule >" link. A "Help" button is located on the right side of the table.

Fig. 21. Archive-It Collection Homepage

The screenshot shows an error page from Archive-It. At the top, there's a header with the Archive-It logo, navigation links for HOME, EXPLORE, LEARN MORE, and CONTACT US, and social media links for Facebook, Twitter, and WordPress. To the right is a logo for The Internet Archive. The main message is "We're sorry: an an error has occurred while you were browsing. Our engineers have been notified and will address the problem as soon as possible." Below this is a "Error Details" section containing the same error message. At the bottom, there's a footer with the Archive-It logo, a brief description, and links for Home, Learn More (About Archive-It, News/Press, Meet the Team, Publications), and Contact Us, along with social media links.

Indian general election, 2014

From Wikipedia, the free encyclopedia

For general elections in India, see [Elections in India](#).

The **Indian general election of 2014** was held to constitute the **16th Lok Sabha**, electing members of parliament for all 543 parliamentary constituencies of India. Running in nine phases from 7 April to 12 May 2014, it was the longest election in the country's history.^{[7][8]} According to the **Election Commission of India**, 814.5 million people were eligible to vote, with an increase of 100 million voters since the last general election in 2009,^[9] making it the largest-ever election in the world.^[10] Around 23.1 million or 2.7% of the total eligible voters were aged 18–19 years.^[11] A total of 8,251 candidates contested for the 543 Lok Sabha seats.^[12] The average election turnout over all nine phases was around 66.38%, the highest ever in the history of Indian general elections.^[12]

The results were declared on 16 May 2014, fifteen days before the **15th Lok Sabha** completed its constitutional mandate on 31 May 2014.^[13] The counting exercise was held at 989 counting centres.^[12] The **National Democratic Alliance** won a sweeping victory, taking 336 seats. The BJP itself won 31.0% of all votes and 282 (51.9%) of all seats,^[14] while NDA's combined vote share was 38.5%.^[15] BJP and its allies won the right to form the largest majority government since the 1984 general election, and it was the first time since that election that a party has won enough seats to govern without the support of other parties.^{[16][17]} The **United Progressive Alliance**, led by the **Indian National Congress**, won 60 seats,^[4] 44 (8.1%) of which were won by the Congress, that won 19.3% of all votes.^{[11][18]} It was the Congress party's worst defeat in a general election. In order to become the

Campaigning in the Indian general election, 2014

From Wikipedia, the free encyclopedia

The Indian general election of 2014 were held to constitute the 16th Lok Sabha in India. Voting took place in all 543 parliamentary constituencies of India to elect members of parliament in the Lok Sabha. The result of this election was declared on 16 May. The 15th Lok Sabha completed its constitutional mandate on 31 May 2014.^[1] Since the last general election in 2009, the 2011 Indian anti-corruption movement by Anna Hazare, and other similar moves by Baba Ramdev, have gathered momentum and political interest.^[2] Issues such as Inflation, price rise and corruption were some of the chief issues.

Social media [\[edit\]](#)

There has been much commentary about the large role that social media is expected to play in this general election.^{[3][4][5]} The expenditure on social media by political parties has been estimated to be around Rs. 5 billion.^[6] In view of this, the Election Commission announced that they would be keeping tabs on the expenditure on social media by political parties and candidates.^{[7][8]} A Christian group launched a non-partisan popular website called Let's Pray for India where people can adopt a constituency that they will pray for during the election.^{[9][10]}

as the timeline is not captured the rest of the story is also not available.

4.1.13 Seed 13

This seed has twenty-six captures with three unique captures over the course of time. It is a standard crawl page with all the links being functional. All the captures have all the resources in the page are archived.

For more than a decade, Indians have asked whether Narendra Modi, India's new prime minister, could have slowed or stopped the bloody 2002 riots in Gujarat. Muslims make up about 14 percent of the Hindu-majority nation founded on a secular constitution. Religion has been used by many parties for political gain. Following is a reconstruction of key developments before, during and after the riots. [More Coverage](#) » [RELATED ARTICLE](#)

'No end in sight for political killings in Kerala as CPM launches nationwide campaign to counter BJP's Janaraksha'.

Fig. 40. Archive-It Capture of Seed 15

4.2 Advantages and Disadvantages of Archive-It

Advantages of Archive-It:

- It is a standard web-archiving tool to create your own personalized as well as public collection.
- It is very useful in standard crawl unlike Webrecorder.
- It captures the modifications made to the seeds over the time by setting up a crawl frequency which is a very useful way of showing changes to a page.
- It has a multiple seed URL paste option which makes the work easy for the end users.

- It is very useful when you building a collection which needs to be crawled after specific time for checking on the modifications to the page.

Disadvantages of Archive-It:

- It is very poor at pages which have javascript on the webpage. I feel it is a limitation of their Herertrix crawl engine.
- It did not capture the video and images for somepages which makes it unpredictable for pages containing images and videos.
- For some captures it displayed me an error without any content which are hard to understand for any naive user.

5 WAIL

I am running WAIL on Windows. It took me some time to setup for the first time, but it runs perfectly fine if I run the executable with administrator privileges. It lists eighteen seeds with a size of 103 MB.

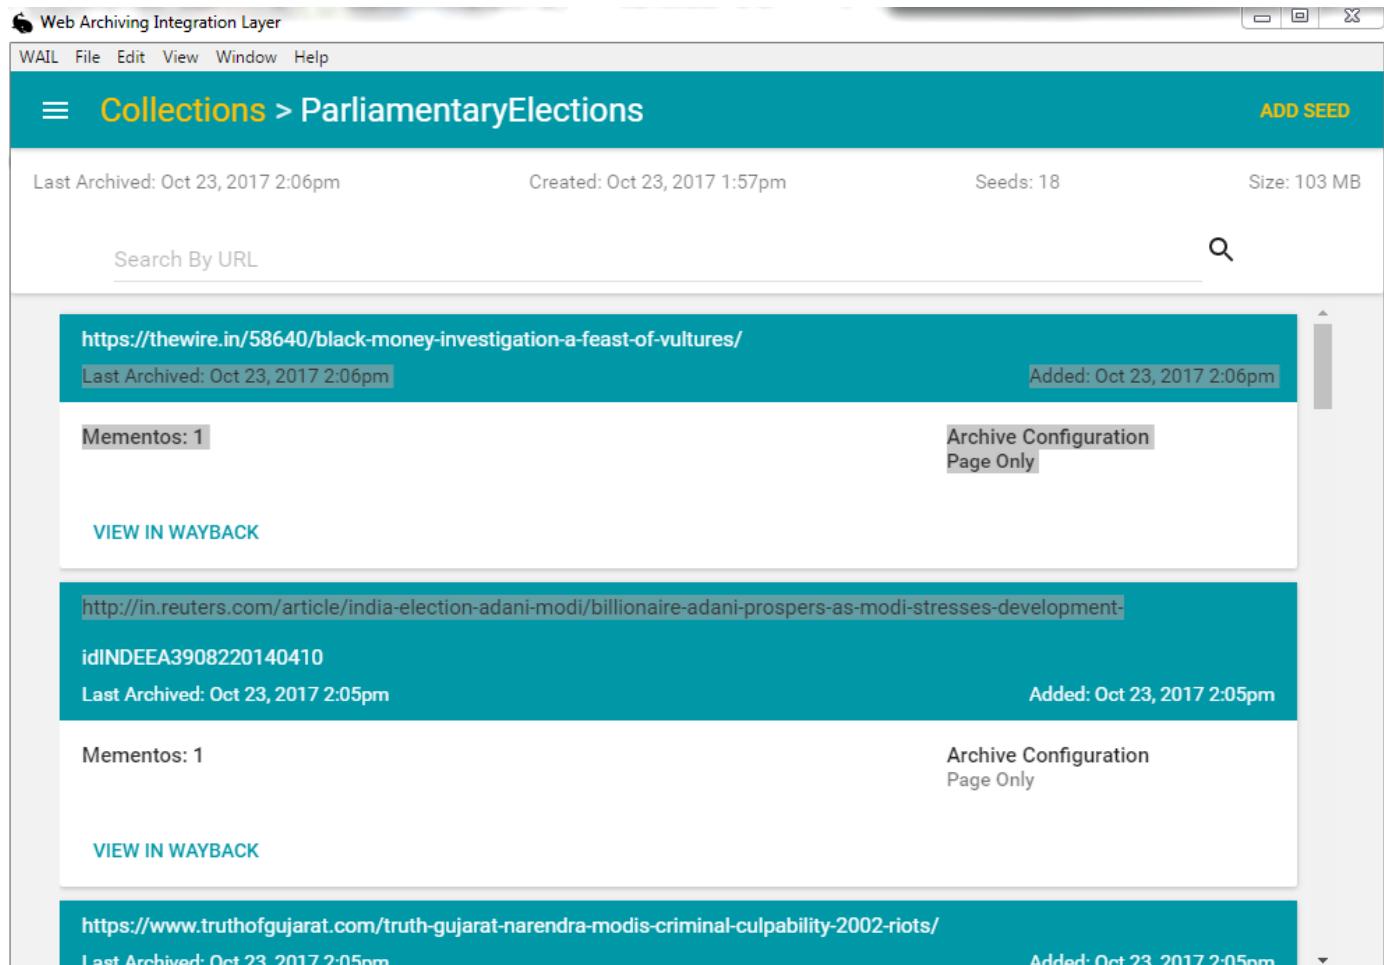

Fig. 41. WAIL Interface

5.1 Review of Seeds

5.1.1 Seed 1

This seed has two captures. On replaying the archived copies it displays an error.

Fig. 42. Wail Capture of Seed 1(Error on replay)

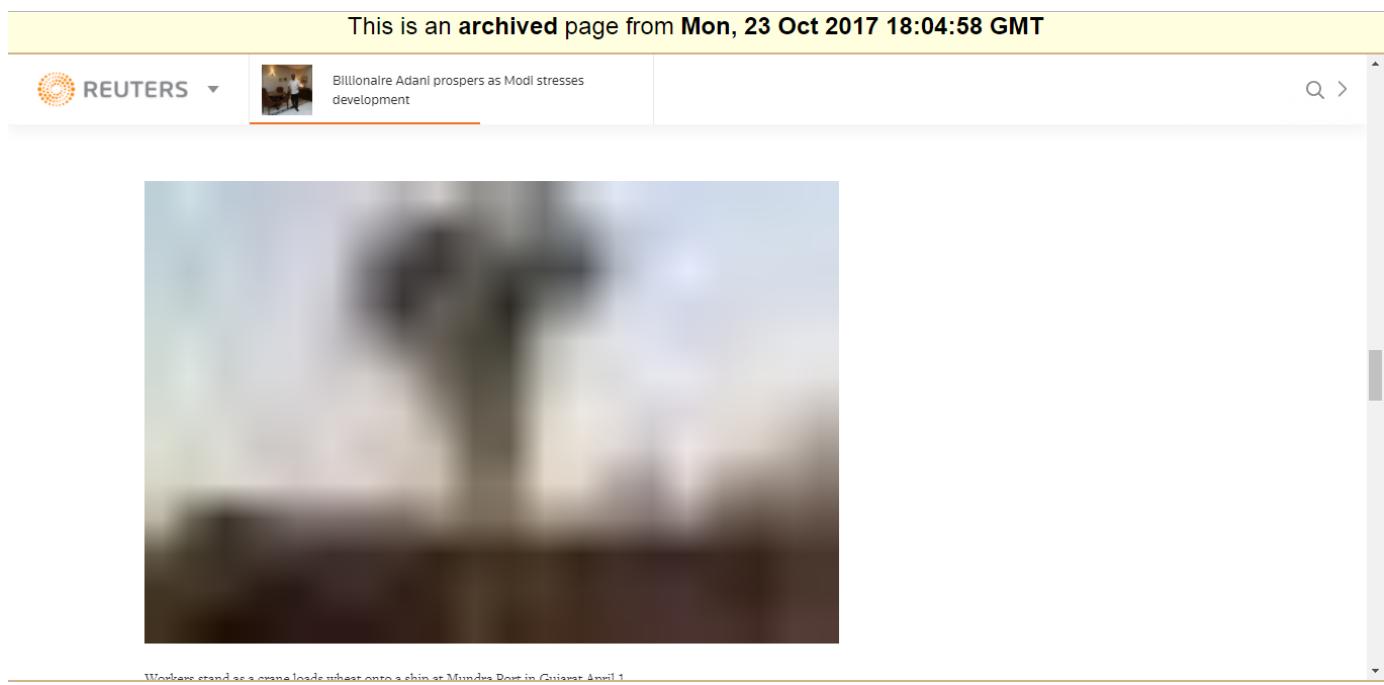

Fig. 43. Wail Capture of Seed 2(Blurred Images)

5.1.2 Seed 2

This seed has one captures. On replaying the archived copies it displays everything in place except for two blurred images which could be due to late loading of the image onto the webpage.

5.1.3 Seed 3

The seed has one capture. It was a standard same domain only crawl. None of the links on the page work, but I have no idea are they on the same domain. The capture has all the contents but misses the slider

images.

This is an archived page from Wed, 25 Oct 2017 02:42:50 GMT

The screenshot shows the homepage of Elections.in, India's first elections website. At the top, there is a banner asking if unemployment is an issue in Himachal Pradesh Elections 2017, with a 'Vote Now!' button. The main navigation menu includes links for PARLIAMENT, STATES, RESULTS, GOVERNMENT, FOR VOTERS, WHAT'S NEW, and KNOW YOUR STATE. Below the menu, a sub-navigation bar shows Home, Blog, and The Adani-Modi Relationship. The main content area features an article by Deepak Parvatiyar dated December 20, 2014, titled 'The Adani-Modi Relationship'. The article discusses the state-owned State Bank of India's recent \$1 billion line of credit to the Adani Group for a coal mining project in Australia. To the right of the article is a sidebar titled 'Recent Posts' with links to other election-related articles. On the far left and right edges of the screenshot, there are vertical panels labeled 'Url Not Found' and 'The url http://www.electic could not be found in this collection.'

The screenshot shows the homepage of ConstitutionNet, supporting constitution builders globally. The header features the International IDEA logo and the ConstitutionNet logo with the tagline 'SUPPORTING CONSTITUTION BUILDERS GLOBALLY'. The main navigation menu includes links for HOME, ABOUT, RESOURCES, NEWS, COUNTRIES, and GET INVOLVED. A vertical sidebar on the left is labeled 'COMMENTS/QUESTIONS'. The main content area shows an article titled 'Secularism and the Constitution of India: controversy under the Modi administration' by Arun K. Thiruvengadam, dated 26 February 2015. The article includes two images: one of the cover of 'THE REPUBLIC OF INDIA' from 26 January 1950 and another of the 'CONSTITUTION OF INDIA' Preamble. To the right of the article is a sidebar titled 'Related Country Profiles' featuring a link to 'India'. Another sidebar titled 'Related resources' lists 'Tokenism or Empowerment? A Comparative Analysis of Public Policies and Institutions of Disadvantaged Communities in India' by external source.

Campaigning in the Indian general election, 2014

From Wikipedia, the free encyclopedia

The Indian general election of 2014 were held to constitute the 16th Lok Sabha in India. Voting took place in all 543 parliamentary constituencies of India to elect members of parliament in the Lok Sabha. The result of this election was declared on 16 May. The 15th Lok Sabha completed its constitutional mandate on 31 May 2014.^[1] Since the last general election in 2009, the 2011 Indian anti-corruption movement by Anna Hazare, and other similar moves by Baba Ramdev, have gathered momentum and political interest.^[2] Issues such as inflation, price rise and corruption were some of the chief issues.

Indian general election, 2014

← 2009	7 April 2014– 12 May 2014	2019 →
members →		
→ outgoing members		
543 seats in the Lok Sabha		
272 seats needed for a majority		
Opinion polls		
Turnout 66.38%		
Leader	Narendra Modi	Rahul Gandhi

5.1.13 Seed 13

This seed has three capture. The captures display an error.

5.1.14 Seed 14

This seed has one capture. The capture has all the resources of the page.

5.1.15 Seed 15

This seed has one capture. The capture has all the resources of the page.

5.2 Advantages and Disadvantages of WAIL

Advantages of WAIL:

- It is easy to use with just pasting the seed URLs in the add seed URL.
- It has a very simple webpage with all the useful information in one place.
- It is very efficient at recording single page seeds. It has an almost 100 p% accuracy in capturing the contents for a single page.
- It is very useful for building personal archives.

Disadvantages of WAIL:

- A few captures just threw error on treplaying them in pywayback.
- It is very poor at capturing seeds which require crawling for related pages. It almost never crawls for the page outside the seed URL which makes it useless for archiving related pages.
- It did not capture the video and images for somepages which makes it unpredictable for pages containing images and videos.
- It makes the user paste single URL at a time unlike Archive-It which is a slight tedious process.
- It uses a multi-threaded approach to run each crawl in a separate thread which takes a toll on the performance of a personal machine.

Fig. 53. Wail Capture of Seed 13 (Error message)

This screenshot shows a WARC capture of the [Elections.in](http://www.elections.in) website. The header indicates it is an archived page from Mon, 23 Oct 2017 17:59:46 GMT. The main content area displays the "General (16th Lok Sabha) Election Results 2014" and "Lok Sabha Election Result 2014 Party Wise". On the left and right sides of the main content area, there are "Url Not Found" messages stating: "The url <http://www.electic> could not be found in this collection." The main content table lists the number of seats won by various political parties:

Party Name	Won
Bharatiya Janata Party (BJP)	282
All India Anna Dravida Munnetra Kazhagam (AIADMK)	37
Biju Janata Dal (BJD)	20
Telugu Desam (TDP)	16
Communist Party of India (Marxist) CPI(M)	9
Nationalist Congress Party	6
Samajwadi Party	5

Fig. 54. Wail Capture of Seed 14

6 WARCREATE

It is very slow to respond in generating WARCs. It makes me feel very unpredictable of when the page is going to have a WARC.

This is an archived page from Mon, 23 Oct 2017 17:57:58 GMT

The screenshot shows the homepage of Firstpost. At the top, there's a navigation bar with links for HOME, POLITICS, SPORTS, INDIA, WORLD, BUSINESS, ENTERTAINMENT, F.CRICKET, TECH, PHOTOS, VIDEOS, SHOWS, FIFA U17 WC, PRO KABADDI, and NIKON. A search icon is also present. Below the navigation, a banner displays 'ZIM Vs WI | Oct 21, 2017' and 'WI 369 /8 (122.3)'. The main headline reads 'Election results 2014: Historic win for NDA with 336 seats, 282 for BJP'. A sub-headline below it says 'NDA's landslide victory in 2014 election'. There are several news cards: 1. 'Election results 2014: Historic win for NDA with 336 seats, 282 for BJP' (with a red background). 2. 'Congress may move court against EC over delay in announcing Gujarat poll schedule'. 3. 'Uttar Pradesh govt committed to promoting religious tourism in the state: Yogi Adityanath'. 4. 'Akhilesh Yadav says Samajwadi Party to contest five seats in Gujarat Assembly polls'. 5. 'Gujarat polls: Hardik Patel tweets that it's not just him, but 6 crore Gujaratis who will battle the BJP'. A sidebar on the right shows a live cricket score for 'ZIM Vs WI | Oct 21, 2017'.

Fig. 55. Wail Capture of Seed 15

6.1 Review of Seeds

6.1.1 Seed 1

The warc file has one memento which on replaying in WAIL shows a pywayback error.

The screenshot shows a browser window with the URL 'localhost:8080/WarCeate/20171024010601/https://www.nytimes.com/interactive/2014/04/06/world/asia/modi-gujarat-riots-timeline.html#/time287_8514'. The page displays an error message: 'A server error occurred. Please contact the administrator.' Below the error message, there is a large, empty white space.

Fig. 56. WARCreate Capture of Seed 1 (Error Message)

6.1.2 Seed 2

The warc file has two mementos which on replaying in WAIL shows all the resources with some related videos missing.

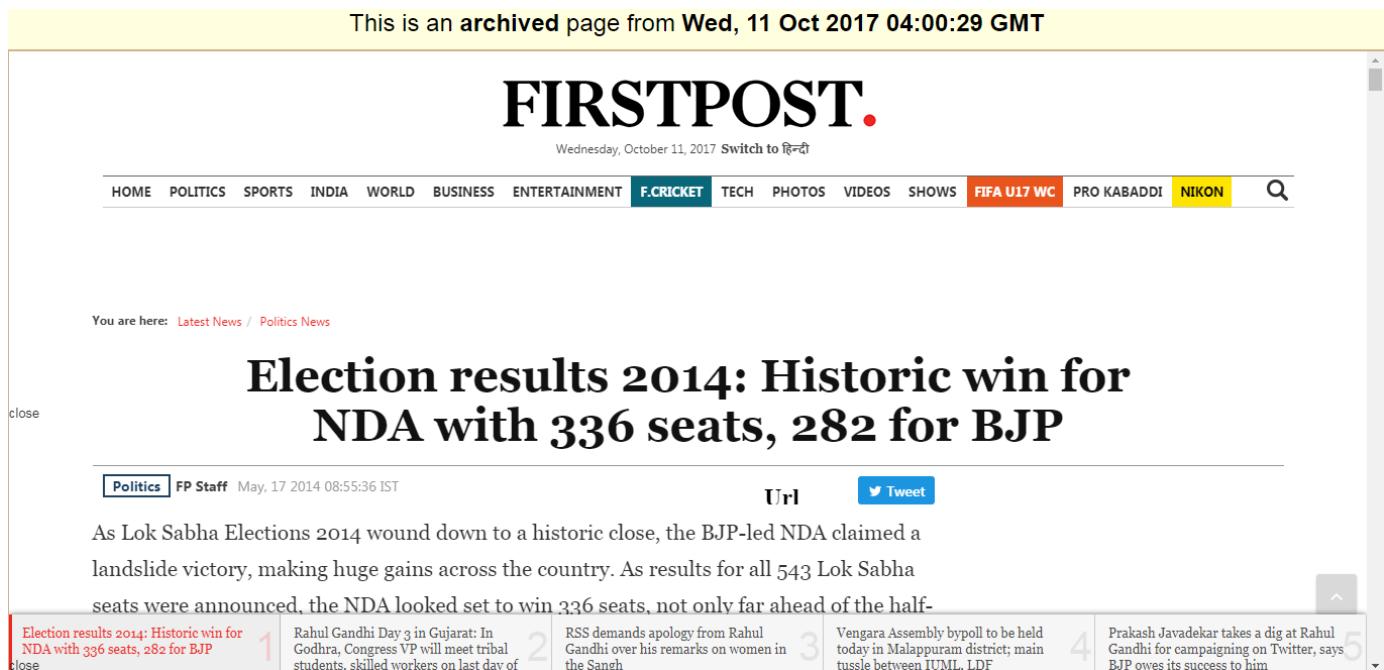

Fig. 57. WARCreate Capture of Seed 2

6.1.3 Seed 3

The warc file has one memento which on replaying in WAIL shows all the resources. This page was supposed to be a standard crawl but WARCreate does not support it, so it is good for nothing seed.

Fig. 58. WARCreate Capture of Seed 3

6.1.4 Seed 4

The warc file has one memento which on replaying in WAIL shows all the resources except for some advertisements.

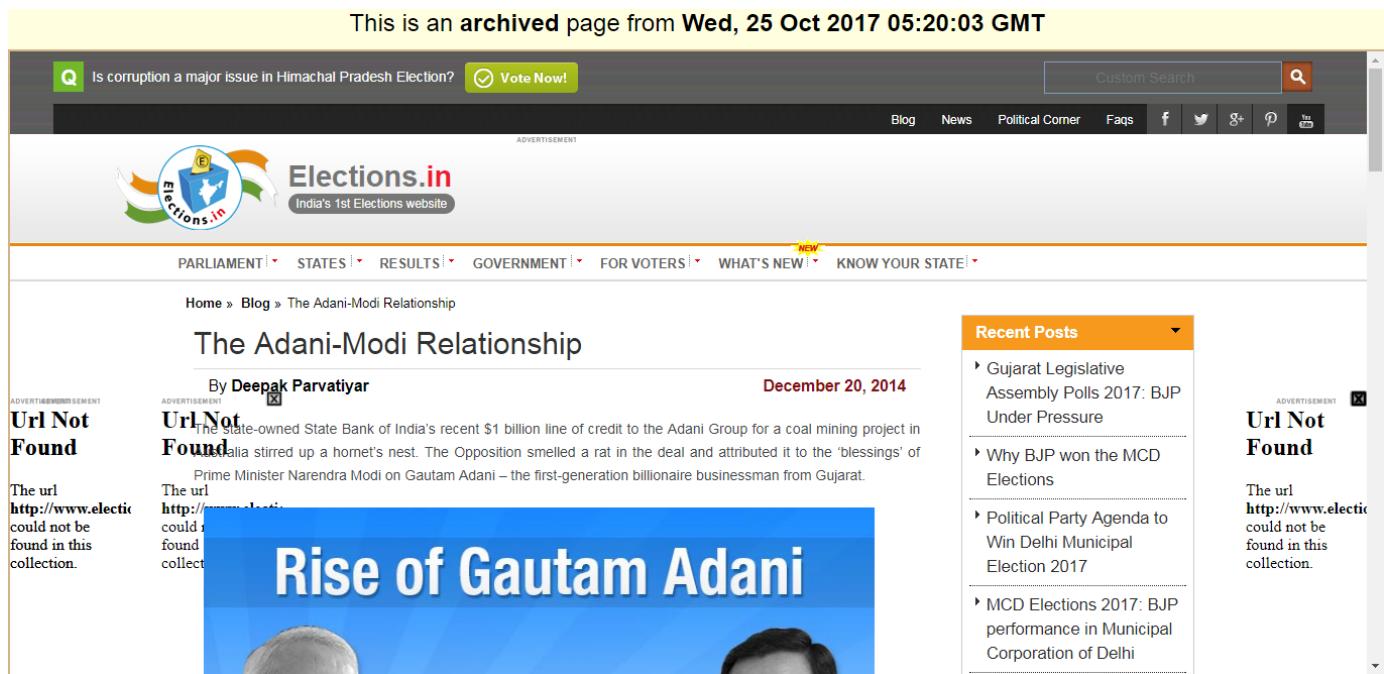

Fig. 59. WARCreate Capture of Seed 4

6.1.5 Seed 5

The warc file has one memento which on replaying in WAIL shows all the resources except for the main image on the article.

Fig. 60. WARCreate Capture of Seed 5(Primary Image missing)

6.1.6 Seed 6

The warc file has one memento which on replaying in WAIL shows an error message.

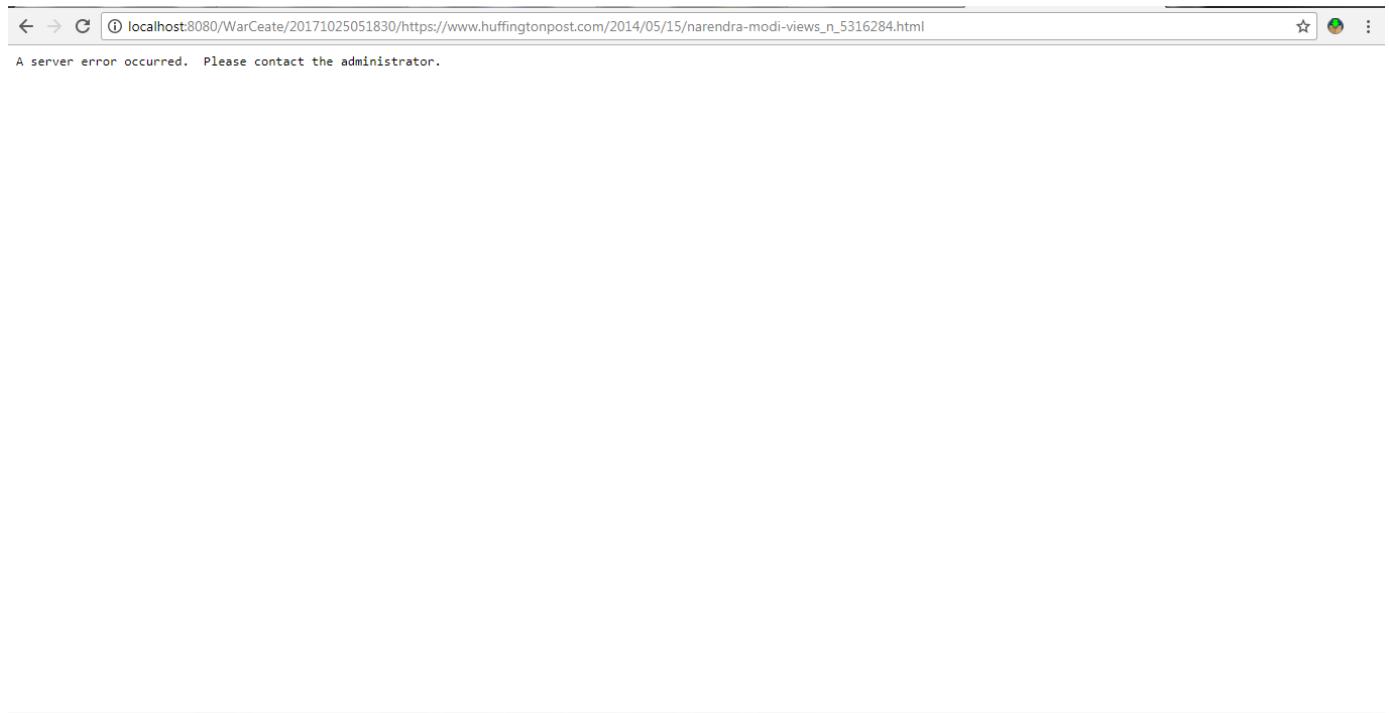

Fig. 61. WARCreate Capture of Seed 6(Error Message)

6.1.7 Seed 7

The warc file has one memento which on replaying in WAIL shows an error message.

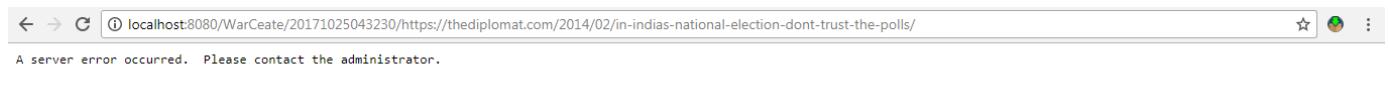

Fig. 62. WARCreate Capture of Seed 7(Error Message)

6.1.8 Seed 8

The warc file has one memento which on replaying in WAIL shows an error message.

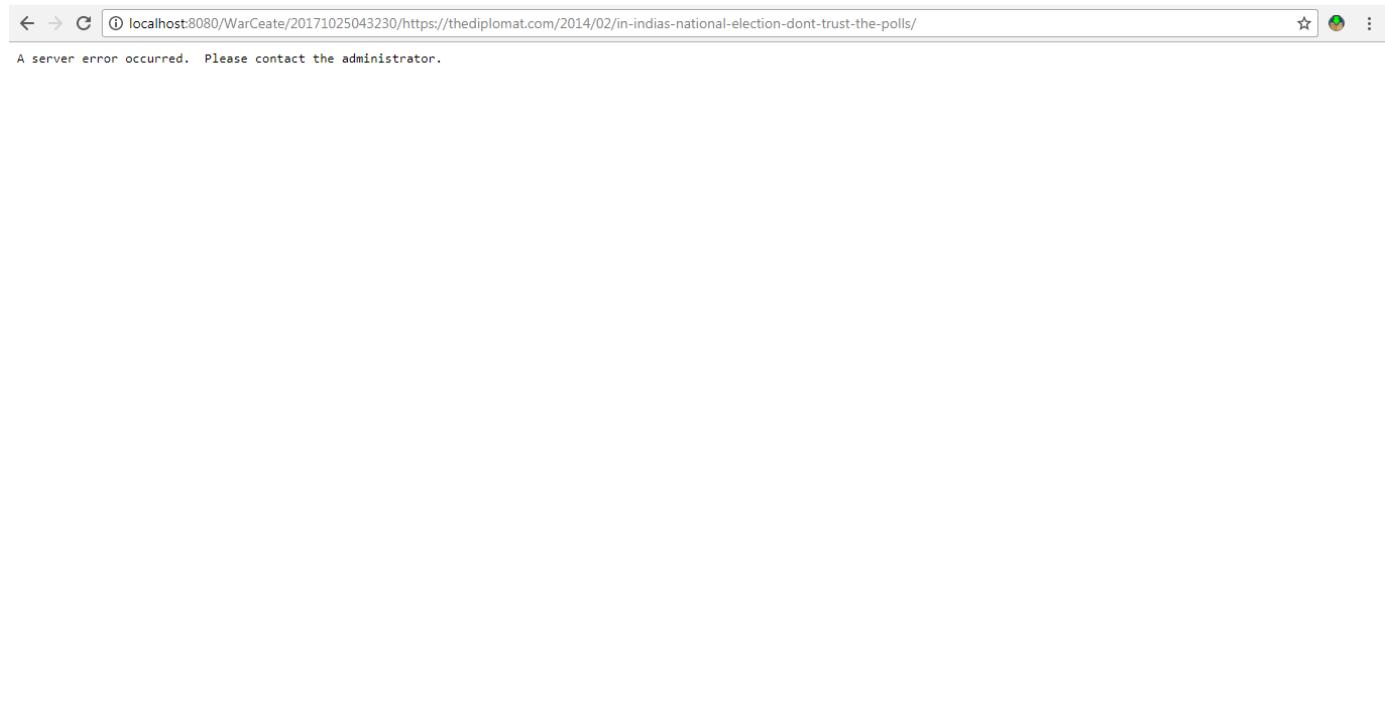

Fig. 63. WARCreate Capture of Seed 8(Error Message)

6.2 Advantages and Disadvantages of WAIL

Advantages of WAIL:

- It is easy to use with just a click of button as Google Chrome extention.

Disadvantages of WAIL:

- It did not capture all the seeds.
- It takes long time in generating WARCs and most times it is not responsive making the user wondering about its functioning.
- It is the poorest tool we are using to build this collection.
- Even its replay does not have a satisfactory result.

7 HIGHLIGHTS OF THE COLLECTION

The fifteen seeds are just a glimpse about the series of event that unfolded before and after the 2014 Parliamentary Elections. This collection can help a user understand the basics functioning of Indian Democracy. It sheds light on the 2014 Parliamentary Elections campaign and results. It also shows why this election was considered a turning point in Indian politics. It shows how a candidate with such a genocide behind his name becomes Prime Minister in a secular nation of India.
